

## **Society CEO Participates on WMC Panel**

***WMS Medigram***

***April 2, 2020***

On Wednesday, Society CEO Bud Chumbley, MD, was a panelist for the Wisconsin Manufacturers and Commerce (WMC) weekly webinar addressing COVID-19 concerns. Dr. Chumbley conveyed to all those present the need for quicker testing of COVID-19 and the importance of collaboration between providers and systems during this crisis.

Dr. Chumbley also informed everyone of the Society's efforts to reach out to over 1,800 retired physicians to help alleviate workforce and access concerns as well as the Society's [additional efforts](#) to supply clinicians with the resources they need to deal with COVID-19.

During the call Dr. Chumbley was asked if the Governor's "safer at home" order would be extended, and he stated that it would while emphasizing the need to take social distancing requirements seriously.
