

Webinar - How the Stimulus Can Help You
April 3, 2020

As the COVID-19 crisis continues, there are wide-ranging resources available for physicians and health care professionals. However, identifying which resources would benefit your health care practice is difficult. The Wisconsin Medical Society (WisMed), gener8tor and WisMed Assure are here to help protect your practice and your employees.

Join gener8tor, WisMed and WisMed Assure for a free webinar about the government resources available to independent physicians and health care practices, as it relates to the stimulus package.

Here are just some of the great topics that will be covered:

- Which federal grant/loan programs is my business eligible for?
- SBA Disaster Loan (e.g. Economic Injury Disaster Loan or EIDL)
- CARES Act and the Paycheck Protection Program (PPP)

Register below to receive the link for the live webinar.

When: April 7 at 7 a.m.

The webinar will be made available as a [COVID-19 resource](#) on the Society's website after the event.
