

Amplify your voice

The Wisconsin Medical Society (Society) is the only association dedicated solely to supporting and strengthening the physician voice in the state of Wisconsin. The Society supports physicians so that they can **Be Heard, Be Strong** and **Be Secure** in their work to provide high quality patient care.

Ways the Society supported physicians in 2020

Requested a premium holiday from the Wisconsin Injured Patients and Families Compensation Fund (IPFCF). IPFCF approved of the holiday saving an average of \$1,280 per physician.

Successfully achieved several legislative measures to protect physicians during the pandemic, including a civil liberty safe harbor, temporary licenses for retired health care workers and those working across state lines, telehealth expansion, provisions for a 1135 Medicaid waiver and more.

Continued our work to reduce administrative burden, most notably by filing an amicus brief for elimination of the Perfection Rule.

Partnered with ActionPPE to create an option for physicians to order much needed PPE for themselves and their practices. This partnership also enabled the Foundation to donate PPE to FQHC clinics across the state.

Wisconsin Medical Society membership dues have been
REDUCED TO \$375
